APPLICATION FOR Regular Membership ¹

THE APFTQ

The Association des producteurs de films et de télévision du Québec (APFTQ) covers the vast majority of independent film and television production companies in Quebec, thus representing a broad range of production genres through a single corporation.

The objectives of the APFTQ are to promote, protect and defend the common interests of all its members involved in the Quebec film and television industry. In addition, the APFTQ ensures that its members uphold the highest possible standards of quality in all areas of the industry having to do chiefly with production.

All members undertake to comply with the APFTQ By-laws and any other regulation adopted by its general assembly, to abide by its Code of Ethics and to pay the prescribed membership fees in a timely manner. Regular and Trainee members of the APFTQ are further bound, for all of their productions, by the various collective agreements signed between the APFTQ and artists' associations recognized in Quebec.

¹ This document refers to the APFTQ By-laws. In case of inconsistency, the official By-laws shall prevail.

STRUCTURE

SECTIONS

The APFTQ is composed of six (6) sections:

1. Television section
2. Feature Film section
3. Documentary section
4. Animation section
5. Commercial section
6. Variety section

The Television section is represented on the Board of Directors by three members, the Feature Film and Documentary sections by two members each, and all of the other sections by one member each.

BOARD OF DIRECTORS

The **Board of Directors** (“the Board”) is composed of thirteen (13) persons elected among regular members – one (1) Chair and twelve (12) Directors. One (1) or two (2) vice-chairs and one (1) secretary-treasurer are elected by the general assembly among the Directors. The Board oversees the APFTQ’s regular business, administers the annual budget and ensures representation in all areas of common interest to the APFTQ membership, in line with the guidelines established by the general assembly.
